

September 2023

Dear Supporters,

Since our last letter we have done a lot of traveling in Peru. We drove in our car to [Santiago de Ica](#), four hours south of Lima, where Proyecto Peru (PP) helped with another roof project.

(By clicking on the orange arrow link below & scrolling down you can see this & other reports on building projects, all in Spanish)

Preaching in three different works four times in just two days wore me out.

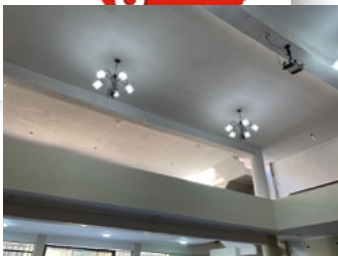

Later in the month of July, I drove our car over the Andes and into the jungle to preach in a church en [Pichanaqui \(Chanchamayo, Junin\)](#) where PP has helped with building more Sunday School space. The 30th of July I preached at the 44th anniversary service in IBB de Pro here in Lima, where I pastored for five years, many years ago. Everywhere we went there were baptisms and responses at the altar.

In August, I preached in the La Molina church (IBBM) while pastor Saul visited a new missionary in Ica that church began supporting under his leadership this year. The next Sunday, I saw the finished project pictured below *(by the PP logo)*. Again people responded to the altar call, I think at times in spite of my sermon. The past two Sundays I have preached in two churches in Lima, that we hope to help one day with building projects as well. I just praise the Lord I get to meet and challenge some fine people with the message of a resurrected Christ, and watch God work in their hearts and lives.

From mid-October, up until Thanksgiving week, Debbie and I will be in the immediate Chicago IL area. I have three mission's conferences scheduled, but do have a few open dates. If we could be a help to you our supporters, let me know and we will try to schedule a service with you.¹

Thanks for your Faithfulness!

Just think what we can do together,

Max & Debbie
