

June 2025

THIS IS OUR MID YEAR REPORT

We hope you all have a wonderful 4th with family and friends. We will get to spend it this year stateside with our granddaughter, Audrey, here in AMARILLO, TX We have taken a short furlough to do some family things: a grandson's wedding, a "master's degree" graduation, a vacation with

Cade and Shay and their children, some doctores wellness visits, & Church anniversaries (my first pastorate in Gene-seo Illinois- 165 yrs. & our sending church in Perryton TX 75 yrs.), all the time keeping abreast of activities in PERU like the Project Peru Revolving Fund and IBB of Pueblo Libre where we started helping in January of this year. We have also unpacked most of the stuff in storage (being way overdue). Soon our home insurance will replace our hail damaged roof here. We continue repairing the inside of the house after 20 years of renters. Needless to say, tired, worn out, and behind on just about everything describes us well today. We are looking forward to returning to Peru on

August 7th to get some rest (Lord Willing).
IN PERU

Beder Rosales started the "Iglesia Biblica Bautista de Pueblo Libre" in Lima and we joined his effort a few months ago. We helped raise the tent covering the preaching area, now they have lowered it again because of the cold and now constant drizzling rain, (which has not happened for years). In spite of it all, attendance continues to grow and the newly purchased swimming pool acts as a baptistry under that same tent.

We have helped and seen campers go to summer church camp (from both the La Molina church and the Pueblo Libre, where many make varied decisions for Christ every year.

THE FUTURE

We have no plans of retiring as your missionaries as of yet. Please be patient with me as I seem to move around a little slower than I did 40 years ago (including writing prayer letters), hopefully when I do move I move a little smarter than before. We have a new doctor now in Amarillo, who guides us as we change some medications to control various health issues. Our goal to return to the field in August, should become a reality as our medications do their jobs and we do ours by eating right, etc.

Just think what we can do together,

The Harmons

Max & Debbie
