

The building is really taking shape, inside and out!

We are with Emma at a soccer game!

We hope to finish the fellowship hall by early next year, 2026.

We use the fellowship hall for kids' camp, youth activities, and other events.

This bathroom will be a HUGE improvement for our ladies. It should be ready in August. I will send pictures!

The old bathroom is awkwardly sandwiched between the auditorium and the kitchen in a high-traffic area.

Old, rickety and drafty...

New and heavy, made of iron!

Surprise sink hole!

The foundation for the Nueva Helvecia church was laid in June. The building will be going up later this month.

About 25 people can enter comfortably in Nueva Helvecia's present building. 125 will be able to enter the new one!

This is the cover of my new book that will be available later this year. My newest video is an excerpt from the book and has to do with the meaning of "all Israel will be saved" in Romans 11:26.
